NOTICE OF CONSIDERATION OF
WASTE DISCHARGE REQUIREMENTS

FOR

OZONE SPARGING ACTIVITIES
ROCCO'S FREESTONE CORNERS
12750 BODEGA HIGHWAY
SEBASTOPOL CALIFORNIA
SONOMA COUNTY

On the basis of preliminary staff review and application of lawful standards and regulations, the California Regional Water Quality Control Board, North Coast Region, proposes to issue Waste Discharge Requirements (WDRs) Order No. R1-2000-51 for operation of an Ozone sparging system at 12750 Bodega Highway.

WDRs No. R1-2000-51 was adopted by the North Coast Regional Water Quality Control Board on July 27, 2000 for addition of oxygen releasing compounds to groundwater. As part of a final remedial action plan, Mr. Rocco Silvestri proposes to inject ozone into the soil and groundwater from six locations on the 12750 Bodega Highway property. The purpose of the proposed system is to reduce concentrations of total petroleum hydrocarbons as gasoline and diesel, and benzene, toluene, xylenes, and ethylbenzene that have impacted the shallow groundwater at the site.

The discharger and other interested persons may call Beth Lamb at (707) 576-2669 or submit to the Regional Board office at 5550 Skylane Boulevard, Suite A, Santa Rosa, CA 95403, written copies of comments, technical reports, testimony, and other evidentiary material concerning this matter by 5:00 p.m., up to 30 days past the date of publication.

WDRs No. R1-2000-51, related documents, and comments received are on file and may be inspected or copied at the Regional Board office on Mondays from 1:30 to 4:30, Tuesday through Thursday from 8:30 to 11:30 a.m. and 1:30 to 4:30 p.m., and Fridays from 8:30 to 11:30 a.m. Appointments are recommended for file review and can be made by calling (707) 576-2220.
